Hortense Finch articles and/or programs

Donor: Alice Richardson Sloane

These items were brought into the Special Collections Center by Alice Richardson Sloane. She believed these were drafts of news articles written by Hortense Finch, a local teacher and author whose published newspaper pieces featured historic items. Upon further reading, it appears some may be programs given for social or civic clubs.

The papers were located in an attic of a home occupied by the Sitz family.

One archive box with fourteen folders.
